-  Time zone function
-  Battery end-of-life indicator
-  Sapphire crystal
-  Anti-reflective treatment on both sides
-  Screw-in crown
-  Watch with diamond(s)
-  2-year International Warranty
-  Water-Resistant to a relative pressure of 15 bar (150 metres/500 feet)

WATCH FUNCTIONS

The crown has 3 positions:

- 1. Normal position (wearing position):** when the crown is positioned against the case, the crown ensures that the watch is water-resistant.
- 2. Setting the time zone and correcting the date:** pull the crown out to position 2. Turn the crown forwards or backwards, and the hour hand will move forwards or backwards by 1-hour intervals. By passing the hour hand over midnight, the date can be changed forwards or backwards. Push the crown back to position 1.
- 3. Time setting:** hours – minutes – seconds. Pull the crown out to position 3. The seconds hand will stop. Turn the crown forwards or backwards. Synchronise the seconds by pushing the crown back to position 1 to coincide with a given time signal.

The end of battery life is indicated by the seconds hand making 4-second jumps. The watch will continue to function for several days, but the battery must be removed and replaced by an authorised OMEGA service agent as soon as possible.
