- Screw-in crown
- Gold 750‰ (18K)
- Watch with diamond(s)
- 4-year International Warranty
- Water-Resistant to a relative pressure of 15 bar (150 metres/500 feet)

WATCH FUNCTIONS

The crown has 2 positions:

1. Normal position (wearing position): when the crown is positioned against the case, the crown ensures that the watch is water-resistant.

Occasional winding: if the watch has not been worn for 50 hours or more, wind it up with the crown in position 1.

2. Time setting: hours – minutes – seconds. Pull the crown out to position 2. The seconds hand will stop. Turn the crown forwards or backwards. Synchronise the seconds by pushing the crown back to position 1 to coincide with a given time signal.
